PROFESSIONAL SUMMARY

Final-year Textile Engineering student with a strong foundation in textile materials, apparel manufacturing, production processes, quality management, and industrial operations. Through my undergraduate studies, I have built a practical understanding of production workflow, quality control, garment costing, and technical documentation. I am comfortable with tools such as Microsoft Office, Richpeace, and Adobe Illustrator and Photoshop, and I work well in teams. I am seeking an internship where I can apply my technical knowledge, learn from industry professionals, and contribute to a company's operations.
